**To whom it may concern:**

**It is my pleasure to write this letter of recommendation on behalf of Aliza Amar, who I recently had the privilege of meeting while she toured in Israel. Ms. Amar visited our site in Raanana, and presented her mission to the staff. Ms. Amar impressed me as an outstanding and courageous woman. She is able to transform her history of child abuse and neglect, into a winning story of a survivor who is fighting to gain a voice and to create a difference in her own life as well as in the lives of others, less fortunate, who are without the strength to fight for a just and better life.**

**As such, Ms. Amar presentation is an inspiration to us all, therapists, survivors, and the public in general. Her insight provides us with tremendous help in directing the need for care and legal change. Ms. Amar is pushing to create a change which would benefit the lives of people who had suffer from abuse, by creating model treatment centers. I am looking forward to continual joint work in hope to advance this field.**

**Respectfully,**

**Talma Cohen, Ph.D.**
